RESUME

Computer Science (BSCS) with a strong interest in mobile app development and AI-assisted technologies. Experienced in frontend development, UI/UX design, and AI-assisted full-stack application development using modern engineering workflows. A fast learner with a practical mindset, focused on building clean, functional, and user-friendly digital products. Strong understanding of leveraging artificial intelligence tools to design, structure, and deliver production-ready digital products efficiently.

PROFESSIONAL EXPERIENCE

FREELANCE -*Graphic Designer (for twtich streamers)* *2021-2024*

AI-Assisted Full Stack Developer (Project Based) — 2026

Built a multi-tenant Coffee Shop Management System (SHOP-POS) using AI-driven development workflows. Delivered a complete production-ready MVP including POS, inventory, staff shifts, reporting, and role-based authentication within 1 week using modern AI-assisted engineering practices.
Organized system architecture, API structure, database design (PostgreSQL + Prisma), and UI implementation using AI tools while ensuring logical correctness, tenant isolation, and real-world usability.

EDUCATION

KARACHI UNIVERSITY

→ *BSCS (bachelor in computer science)*

KARACHISINDH BOARD

→ *Intermediate (Pre-Engineering)*

SKILLS

- UI/UX Design
- Flutter (Mobile App Development)
- AI-Assisted Development
- PostgreSQL / Prisma
- React / Next.js
- Prompt Engineering
- System Architecture Basics

WEB / FULL STACK DEVELOPMENT — AI-ASSISTED ENGINEERING

Hands-on experience building full-stack web applications using React, Next.js, Node.js, PostgreSQL, and Prisma ORM. Skilled in structuring backend APIs, authentication systems, and database models with AI-assisted workflows.
Experienced in rapid MVP development, prompt engineering, and organized product delivery using modern AI tools.

LANGUAGES

Urdu ●●●●●

English ●●●○○

TECHNICAL UNDERSTANDING

- Database modeling & relational schema design
- REST API structuring & endpoint planning
- Authentication & session management
- Data validation & error handling
- Multi-tenant data isolation
- Production deployment workflow
